ALZHEIMER'S SEMINAR

Everyone knows someone who has a memory impairment, dementia, or Alzheimer's. There is an estimated 5.8 million Americans that have Alzheimer's Disease, with an estimated 10-15 thousand living on Cape Cod. More than half million will die from complications of this devastating disease. Seventy percent of people live at home with their caregiver. More Sixteen million caregivers are responsible for paying as much as half of the \$226 billion annual cost of caring for someone with Alzheimer's Disease.

In response to this growing epidemic, St. Peter the Apostle Church is sponsoring a four-part virtual seminar, "**Community Responders: Fighting Alzheimer's Together During the COVID Pandemic**", to create an educational awareness of Alzheimer's/Dementia and how we as a community – and as individuals – can better meet the needs of a person with Alzheimer's Disease and their caregiver.
